06 Dental Equipment Accessories

V300 LED Light Curing Device

- Light intensity: 1000-1400 mW/cm²
- Spectrum: 400-515 nm
- Battery (2200 mAh, undetachable)
- Plastic housing & digital display

V400 LED Light Curing Device

- Light intensity: 1000-1400 mW/cm²
- Spectrum: 400-515 nm
- Battery (2200 mAh, undetachable)
- Plastic housing & digital display

Classic Prophylaxis Powder (Sodium Bicarbonate)

- High cleaning efficiency for heavy stains
- Supragingival: 65 µm, 260 g/bottle
- Cost-effective for routine cleaning

UKC-S2 Prophylaxis Powder (Erythritol)

- Gentle cleaning for sensitive patients
- Supragingival: 65 µm, 220 g/bottle
- Sub+supragingival: 14 µm, 160 g/bottle
- Low abrasiveness for tooth protection

UKG-S3 Prophylaxis Powder (Glycine)

- Ultra-gentle cleaning for soft tissue care
- Supragingival: 65 µm, 220 g/bottle
- Sub+supragingival: 25 µm, 160 g/bottle
- Low irritation for comfortable treatment

T-3 Dental Utility Cart

- Compact size (340 × 400 × 817.8 mm)
- Smooth mobility with 2.5-inch lockable wheels
- Easy assembly & use

07 High Speed Turbine Handpiece

High Speed Turbine Handpiece Series

- Multiple head specifications are available for selection
- Metal material provides a better tactile feel
- Autoclavable at high temperature and high pressure
- Dust-proof cover with ceramic bearings

08 Handpiece

AH-1

- Metal supragingival air polishing handpiece
- Compatible with EMS & WOODPECKER
- For: VRN-Q6, DQ-40, DQ-80

AH-2

- Metal supragingival air polishing handpiece
- Compatible with EMS & WOODPECKER
- For: VRN-Q6, DQ-80

AH-3

- Air polisher handpiece
- For: DP-10 only

HP-1

- Sealed scaler handpiece with cable
- Compatible with EMS & WOODPECKER
- For: VRN-B

HP-2

- Detachable scaler handpiece
- Compatible with EMS & WOODPECKER
- For: VR-K08A, VRN-D, VRN-102

PH-1

- LED detachable scaler handpiece
- Compatible with EMS & WOODPECKER
- For: VR-K08A, VRN-DL, VRN-103, VRN-A5, VRN-A8, DA-10, DA-20

PH-2

- Metal LED detachable periodontal handpiece
- Compatible with EMS & WOODPECKER
- For: VRN-Q5, VRN-Q6, DQ-40, DQ-80

HS-1L

- Piezoelectric bone surgery handpiece
- Compatible with Mectron
- For: DS-100

20:1L

- Contra-angle handpiece 20:1
- For: DZ-100

MZ36L

- Contra-angle handpiece 20:1 and motor
- For: DZ-100

09 Personal Set

Piezo Tips Set

- US1*1, US2*1, US4*1, US5*1, UL3*1, UC1*1

DH-1

- Sterilization Box*1, PH-1*1, Wrench*1, G1*1, G2*1, G4*1, P1*1

DH-2

- Sterilization Box*1, HP-2*1, Wrench*1, G1*1, G2*1, G4*1, P1*1

10 Magnifier

EX Series Medical Magnifier

- 2.0×-3.5× magnification for clear detail
- Working distance options: 350-500 mm
- Adjustable IPD: 50-78 mm
- Compatible with prescription lenses for easy replacement
- Adjustable viewing angle for better posture
- Wide field of view for efficient work
- Lightweight frame for all-day comfort

11 Water Supply Device

WSD- III (High Version)

- Application: suitable for water supply of dental equipment
- The water flow output: not less than 50 mL/min
- The water pressure: not less than 0.02 mpa
- Imported water pump, long service life

WSD- III (Standard Version)

- Application: suitable for water supply of dental equipment
- The water flow output: not less than 50 mL/min
- The water pressure: not less than 0.02 mpa
- Imported water pump, long service life

12 Veterinary Dental Workstation

VDS-001A

- All-in-one dental workstation
- Built-in air compressor with 5 L tank (0.4-0.7 MPa, 132 L/min)
- Designed for various veterinary dental procedures
- Strong suction performance (≥400 mL/min)
- Adjustable water flow & height with low-noise operation
- Compact & mobile design

VRN Medical PRODUCT OVERVIEW

Better Care, Global Smiles.

Innovation-Driven,
Leading the Future

01 Air Polisher System

CC DQ-80 Air Polishing System

- 6-in-1 integrated treatment system
- Elliptical oscillation for gentle scaling
- Heated water system for air polishing comfort
- Touch control for power & pressure
- Dual pipeline cleaning
- High-pressure reverse blowing
- Multifunctional wireless foot pedal
- LED detachable scaling handpiece (PH-2)

CC VRN-Q6 Air Polishing System

- 2022 Beijing Winter Olympics star product
- 6-in-1 integrated treatment system
- Sine wave drive for gentle scaling
- One-touch cleaning
- High-pressure reverse blowing
- Multifunctional wireless foot pedal
- LED detachable scaling handpiece (PH-2)

CC DQ-40 Air Polishing System

- 5-in-1 integrated treatment system
- Elliptical oscillation for gentle scaling
- Dual-disc touch panel with 12-level control
- One-touch cleaning
- High-pressure reverse blowing
- Wireless foot pedal
- LED detachable scaling handpiece (PH-2)

DP-60 Pro Air Polisher

- 7-inch touchscreen for easy operation
- Selectable external or bottle water supply
- Integrated supra & subgingival cleaning
- Adjustable heating system for patient comfort
- Wireless foot pedal for flexible operation
- Anti-clogging & easy maintenance design
- Slim nozzle for precise cleaning and better visibility

DP-60 Plus Air Polisher

- 7-inch touchscreen for easy operation
- Supragingival air polishing with optional subgingival
- Adjustable heating system for patient comfort
- Wireless foot pedal for flexible operation
- Anti-clogging & easy maintenance design
- Slim nozzle for precise cleaning and better visibility

DP-60 Air Polisher

- Basic control interface for easy operation
- Supragingival air polishing
- Wired foot pedal for stable operation
- Anti-clogging & easy maintenance design
- Slim nozzle for precise cleaning and better visibility

CC DP-10 Air Polisher

- Anti-clogging handpiece design
- Transparent powder chamber for easy monitoring
- Small-caliber 360° nozzle for precise cleaning
- Ergonomic design for comfortable grip
- Easy maintenance for long service life

02 Ultrasonic Scaler

CC VRN-Q5 Ultrasonic Scaler

- Sine wave drive for gentle periodontal treatment
- Intelligent feedback power control
- 12-level touch control interface
- 800 mL large-capacity water tank
- Antibacterial water system with imported pump
- IPX4 wireless foot pedal
- LED detachable scaling handpiece (PH-2)

CC DA-20 Ultrasonic Scaler

- 3-in-1 ultrasonic scaler with smart frequency tracking
- Intelligent feedback power control
- 10-level touch control interface
- Antibacterial water system with stable pump
- IPX4 wireless foot pedal
- LED detachable scaling handpiece (PH-1)

CC VRN-A8 Ultrasonic Scaler

- 3-in-1 ultrasonic scaler with stable power output
- Intelligent feedback power control
- Automatic water supply system
- IPX4 wireless foot pedal
- LED detachable scaling handpiece (PH-1)
- Optional external water supply & detachable cable design

CC DA-10 Ultrasonic Scaler

- 3-in-1 ultrasonic scaler with auto frequency tracking
- Piezoelectric technology for stable performance
- External water supply connection
- Wired foot pedal
- Optional LED detachable scaling handpiece

VRN-A5 Ultrasonic Scaler

- 2-in-1 ultrasonic scaler with auto frequency tracking
- Intelligent feedback power control
- Built-in microprocessor for comfortable scaling
- External water supply connection
- Wired foot pedal
- Optional LED detachable scaling handpiece

CC VR-K08A Ultrasonic Scaler

- Ultrasonic scaling
- Automatic frequency tracking for stable performance
- Mechanical control for power & water adjustment
- Optional LED detachable scaling handpiece

VRN-B Ultrasonic Scaler

- Ultrasonic scaling
- Fully automatic frequency tracking system
- Mechanical control for flexible adjustment

CC VRN-D / VRN-DL Ultrasonic Scaler

- Ultrasonic scaling & root canal irrigation
- Fully automatic frequency tracking system
- Built-in microprocessor for comfortable scaling
- Mechanical control for power & water adjustment
- Optional LED detachable scaling handpiece

VRN-I02 Built-in Ultrasonic Scaler

- Built-in ultrasonic scaler for unit integration
- Scaling, periodontal & endodontic irrigation
- Automatic frequency tracking for stable performance
- Intelligent feedback power control
- Detachable scaling handpiece (PH-2)

VRN-I03 Built-in Ultrasonic Scaler

- Built-in ultrasonic scaler for unit integration
- Scaling, periodontal & irrigation
- Automatic frequency tracking for stable performance
- Intelligent feedback power control
- LED detachable scaling handpiece (PH-1)

03 Oral Surgical Equipment

DS-100 Ultrasonic Bone Surgery Device

- Piezo bone surgery for safe & minimally invasive cutting
- Selective cutting with soft tissue protection
- High-precision micro-vibration for accurate osteotomy
- 7-inch touchscreen with intuitive UI
- Multiple clinical modes (bone, perio, endo, clean)
- Independent irrigation system with adjustable flow
- LED surgical handpiece for clear visibility
- Multifunctional foot pedal for hands-free control

DZ-100 Dental Implant Device

- High-performance brushless motor for stable output
- Wide speed range up to 40,000 rpm
- Precise torque control up to 80 Ncm
- 8 intelligent surgical programs
- Real-time feedback for speed & torque
- 6-level irrigation system for optimal cooling
- Multifunctional foot pedal control
- Ergonomic design with low noise & low vibration

ES-20 Electrosurgical Unit

- Precise cutting & coagulation performance
- Adjustable power for flexible control
- Multiple electrode options for various procedures
- Foot pedal control for hands-free operation

04 Dental Imaging Products

EQ Series Intraoral Sensor

- High-resolution imaging
- Advanced CMOS architecture
- TWIN connectivity
- IPX7 waterproof design
- Ergonomic compact sensor

CC EQ-600 Image Plate Scanner

- Ultra-clear imaging with fast processing
- Flexible & reusable image plates
- TWIN & ICOM connectivity
- User-friendly operation with 9 language options

YOU98 (P) Portable X-ray Unit

- Stable 70 kV output with 2 mA tube current
- Portable & compact design
- High-frequency imaging with adjustable exposure
- LED display

SUPER05 X-ray Unit

- Stable 70 kV output with 2 mA tube current
- Handheld & stable design
- High-frequency imaging with adjustable exposure
- Digital display

CC DK-100 Intraoral Scanner

- High-speed full-arch scanning (≈88 s)
- Dual scan tips (mini & standard) with heated anti-fog design
- AI-enhanced data processing for higher efficiency
- True color 3D imaging for better communication
- Open system with STL / PLY / OBJ export
- Calibration-free operation

05 LED Curing Light

CC VAFU LED Light Curing Device

- 1 second curing light
- Light intensity up to 3200 mW/cm²
- Wide spectrum (385–515 nm)
- 3 interchangeable light guides (spot, ball, endo)
- Unibody aluminum housing & 9 intensity modes for versatile applications
- Caries detector & light meter & wireless charging

CC DV-50 LED Light Curing Device

- 1 Second curing light
- Light intensity up to 2600 mW/cm²
- Wide spectrum (385–515 nm)
- Battery (2000 mAh, detachable)
- OLED display with multiple modes
- Caries detector & light meter & wireless charging

DV-60 LED Light Curing Device

- Orthodontic specialist
- Light intensity up to 2300 mW/cm²
- Wide spectrum (385–515 nm)
- Battery (800 mAh, detachable)
- OLED display with multiple modes
- Caries detector

V100 Built-in

- Light intensity: 800–1600 mW/cm²
- Spectrum: 400–515 nm
- Metal housing & digital display

CC V200 LED Light Curing Device

- Light intensity: 800–1600 mW/cm²
- Spectrum: 400–515 nm
- Battery (2200 mAh, detachable)
- Metal housing & digital display
